# Agenda I

Sunday 10 May	Lecture	Presenter
21:00-21:05	Welcome and Introduction	Dr Mohammed Omair
21:05-21:15	Clinical importance of enthesitis in SpA, incl. PsA (both peripheral and axial) with voting questions	Dr Mohammed Omair
21:15-22:00	MRI of peripheral enthesitis: Relevance of MRI, definitions of pathologies, how to detect and monitor with voting questions	Prof. Mikkel Østergaard
22:00-22:55	MRI enthesitis cases: interactive viewing and voting	Prof. Mikkel Østergaard
22:55-23:00	Summary and Closing	Dr Mohammed Omair

# Agenda II

Monday 11 May	Lecture	Presenter
21:00-21:05	Welcome and Introduction	Dr Mohammed Omair
21:05-22:00	MRI of axial enthesitis: Relevance, which lesions, definitions, location in spine and sacroiliac joints, how to monitor, importance for disease course; Lecture including voting questions	Prof. Mikkel Østergaard
22:00-22:55	MRI enthesitis cases: interactive viewing and voting and evaluation	Prof. Mikkel Østergaard
22:55-23:00	Summary and Closing	Dr Mohammed Omair

# Learning Objectives

Day	Learning Objectives
Sunday 10 May	Describe definitions of pathologies, detect and monitor MRI of peripheral enthesitis
Monday 11 May	Describe definitions of pathologies, detect and monitor MRI of axial enthesitis.

To register:

Send your Name, email, Hospital and City by Sunday 3<sup>rd</sup> of May
